### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: applicant has found a patentable process for making mesoporous silica complex. The newly submitted claims are commensurate in scope with the unexpected results supported by the declaration filed 1/15/18. The Yokoi Declaration represents an unexpected result in that the combination of (A) an anionic surfactant, (B) silicate monomer, and (C) basic silane provides particularly sharp powder X-ray peaks for each of the complex, the outer shell, and the porous silica as compared to the combination of (1) a cationic surfactant, (2) silicate monomer, and (3) basic silane (representative of the cited art). Moreover the claimed combination resulted in no precipitate formation. This result is not disclosed, suggested, or expected from the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel A. Barts whose telephone number is 571-272-2870. The examiner can normally be reached on 6:30-3:00.
